Climate Change Home - worldbank.org

Financing climate change is an important part of the World Bank Group's business. Our focus has resulted in significant financing flowing to support low-emissions and resilient development. For example, mitigation support for the world's poorest countries through the Bank's IDA reached \$2.3 billion during fiscal year 2013, while the IFC's mitigation financing increased 50 percent to \$2.5 billion.

F E 4 T T T T T 2 0 1 5 T his year's annual State of Food Insecurity in the World report takes stock of progress made towards achieving the internationally established hunger targets, and reflects on what needs to be done, as we transition to the new post-2015 Sustainable Development Agenda.

The State of Food Insecurity in the World

The credit of any victory rest largely on the shoulders of passionate Greenpeace volunteers, donors, activists, water protectors, pipeline fighters, petition-signers, protesters, Congress callers, plastic clean-up and brand auditors, supermarket plastic campaigners, and social-media messengers – all of whom joined us in this extraordinary time to affect change for our environment.

World energy consumption is the total energy used by the entire human civilization. Typically measured per year, it involves all energy harnessed from every energy source applied towards humanity's endeavours across every single industrial and technological sector, across every country. It does not include energy from food, and the extent to which direct biomass burning has been accounted for ...

Scientific opinion on climate change is a judgment of scientists regarding the degree to which global warming is occurring, its likely causes, and its probable consequences.. A relatedâ€”but not identicalâ€”term, "scientific consensus on climate change," is the prevailing view on climate change within the scientific community. The consensus is that: Earth's climate has warmed significantly ...
