

architectural graphics and communication pdf

An architectural drawing or architect's drawing is a technical drawing of a building (or building project) that falls within the definition of architecture. Architectural drawings are used by architects and others for a number of purposes: to develop a design idea into a coherent proposal, to communicate ideas and concepts, to convince clients of the merits of a design, to enable a building ...

Architectural drawing - Wikipedia

Architectural rendering, or architectural illustration, is the art of creating two-dimensional images or animations showing the attributes of a proposed architectural design.

Architectural rendering - Wikipedia

This Qualification will teach the student how to operate various CAD software applications and focuses on architectural draughting (drawing of building plans).
