

before the industrial revolution pdf

The Industrial Revolution was the transition to new manufacturing processes in Europe and the US, in the period from about 1760 to sometime between 1820 and 1840. This transition included going from hand production methods to machines, new chemical manufacturing and iron production processes, the increasing use of steam power, the development of machine tools and the rise of the factory system.

Industrial Revolution - Wikipedia

The Second Industrial Revolution took place between 1870 and 1914, just before World War I. It was a period of growth for pre-existing industries and expansion of new ones, such as steel, oil and electricity, and used electric power to create mass production.

Fourth Industrial Revolution - Wikipedia

The Industrial Revolution radically changed the organization of work. In the new factories, a large number of workers gathered together six or seven days a week to engage in tightly coordinated tasks paced by machinery.
