recent development in clusters pdf

Science and technology Astrophysics. Star cluster, referring to both open and globular clusters; Open cluster, a spherical collection of stars that orbits a galaxy in the galactic plane; Globular cluster, a spherical collection of stars whose orbit is either partially or completely in the halo of the parent galaxy. They are older, more densely populated, and contain more stars than open clusters.

Cluster - Wikipedia

A business cluster is a geographic concentration of interconnected businesses, suppliers, and associated institutions in a particular field. Clusters are considered to increase the productivity with which companies can compete, nationally and globally. In urban studies, the term agglomeration is used. Clusters are also important aspects of strategic management
