Baggie Science This activity introduces students to the idea of chemical reactions by having them mix chemicals inside zip-lock baggies. Although this activity was designed for younger students, it can be used as is or modified for high school students.

The Catalyst: Chemistry Experiments and Demonstrations

A group of Manhattan Project physicists created a tongue-in-cheek mythology where superintelligent Martian scouts landed in Budapest in the late 19th century and stayed for about a generation, after which they decided the planet was unsuitable for their needs and disappeared. The only clue to their ...

The Atomic Bomb Considered As Hungarian High School

Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word

for the pursuit of such knowledge. In particular, it was the ...
