What does this guide cover? What information are you sharing when you use social networks? How may your social network information be used and shared?

Social Networking Privacy: How to be Safe, Secure and

A computer network, or data network, is a digital telecommunications network which allows nodes to share resources. In computer networks, computing devices exchange data with each other using connections between nodes. These data links are established over cable media such as wires or optic cables, or wireless media such as WiFi.. Network computer devices that originate, route and terminate the ...
